

# ZYMITOL®

*Infused Zymitol May Promote the Normalization of General Pain & Inflammation*

Item #00190- A bottle of 90 infused vegetable capsules  
Item #00136- A bottle of 360 infused vegetable capsules  
Item #00163- A bottle of 630 infused vegetable capsules

**Fight pain • Aid digestion • Support for healthy immune function • Cleanse the blood**

## Summary:

**Zymitol®** — *noun, zym-i-tol*: the new standard in broad spectrum systemic enzyme therapy. With today's technology we are able to bring you an enzyme formula that couldn't even have been conceived in years past. Zymitol is an exceptional, excipient free vegetarian product that you can be confident in using as part of your pain and inflammation programs.\*

Blending expert findings with today's technology, Zymitol® redefines pain management. Zymitol® is built on a foundation of high potency enzymes and as you may already know, normal enzyme levels may help the body to activate its internal repair processes, contributing to healthier, more productive lifestyles.

Zymitol® is a broad spectrum systemic enzyme formulation with important additions like, MSM, alpha lipoic acid, magnesium and rutin. Zymitol was designed to ease the symptoms of aging.\*

Enzymes are catalysts for virtually every biological and chemical reaction in the body.\*

You may know that by the time we reach our late twenties, our body's own production of enzymes slows as part of the aging process. You may also know that food in its raw form is the best source of enzymes, apart from what our bodies produce. Cooked and processed foods, for the most part are absent of enzymes.\*

If your diet is comprised in large part of cooked foods, it is reasonable to assume that you may benefit from supplementation of Zymitol®.\*

Zymitol® promotes the reduction of generalized pain and inflammation without the use of any unwanted chemicals to obstruct, inhibit, or in any other way negatively affect the results you deserve. We use specialized manufacturing equipment and very carefully select density specific active ingredients in the formulation process. This allows us to provide you with consistency in batch manufacturing without compromising Zymitol® with the use of excipients or "other ingredients" that have at best, **NO PROVEN HEALTH BENEFITS.**

Additionally we think it's important for you to know that all Generation+® formulations have taken several monumental steps into the future with the process of bio-energy infusion. This process supports the objective of our products with the infusion of specific, activated subatomic energies.

## Who may benefit:

Zymitol® may be recommended to anyone wishing to normalize immune function, digestion or pain levels. We do not recommend this product for anyone taking anticoagulants.

## Recommended usage:

### Two Week Loading Phase/Therapeutic Dose:

Three (3) to five (5) vegetable capsules, with at least eight (8) fluid ounces of water three times daily, 45-60 minutes away from large meals. For best results, take three (3) to five (5) capsules at bedtime, three (3) to five (5) capsules when you wake, and three (3) to five (5) capsules in the middle of your day.

### Maintenance dosage:

Depending upon the level of discomfort, take one (1) to five (5) vegetable capsule(s), with at least eight (8) fluid ounces of water three times daily, 45-60 minutes away from large meals. For best results, take one (1) to five (5) capsule(s) at bedtime, one (1) to five (5) capsule(s) when you wake, and one (1) to five (5) capsule(s) in the middle of your day.

**Dosage Form:** Size 00, vegetable capsule

## Ingredients:

Zymitol® Proprietary Blend ..... 2265 mg  
MSM (methylsulfonylmethane), G+ Protease Blend Bromelain 10, 395 PU, Papain 8,442,000 PU, Amylase 4500 DU, Lipase 900 FIP, Serrapeptase 9360 SU, Alpha Lipoic Acid, Magnesium Citrate, Rutin

**Other Ingredients:** Vegetable Capsule

**KEEP OUT OF REACH OF CHILDREN**

**AS IS WITH ANY DIETARY SUPPLEMENT PLEASE CONSULT YOUR PHYSICIAN PRIOR TO USE**

**WARNING:** Consult your health care provider prior to taking this product if you currently take any type of blood thinners. Pregnant or lactating women should consult a doctor before using this or any other product.

**STORE IN A COOL, DRY PLACE WITH LID TIGHTLY CLOSED**

## Zymitol® Defined A-Z

**Amylase** — *noun*, am-y-lase: enzymes which catalyze the hydrolysis of starch and glycogen or their intermediate hydrolysis products. If carbohydrates are not properly hydrolyzed, the potential for serious health concerns may develop. Amylase will act with Protease to stimulate immune system function. It also works with lipase to digest certain toxins.\*

**Bromelain** — *noun*, bro-me-lain: a protease obtained especially from the pineapple and once in the blood, it may promote normal inflammation levels, maintain healthy blood flow, and may support the immune system. Bromelain may ease the aching and stiffness of back muscles and also seems to relieve pain in chronically inflamed joints.\*

**Circulatory system** — *noun*, cir-cu-la-to-ry sys-tem: the system of blood, blood vessels, lymphatics, and heart concerned with the circulation of the blood and lymph. Zymitol® uses the circulatory system as a mode of transportation, enabling the deposit of its nutrients where the body needs them most.\*

**Enzyme** — *noun*, en-zyme: any of numerous complex proteins that are produced by living cells and catalyze specific biochemical reactions.

**Excipient** — *noun*, ex-cip-i-ent: we do not use any "other ingredients" in this product. That means that you are provided an exceptional, excipient free formulation that gets right to the heart of healing. There are simply no unwanted chemicals in Zymitol® to obstruct, inhibit, or in any other way negatively affect the results our customers have grown to expect.\*

**G+ Protease** — *noun*, g-plus pro-te-ase: any of a number of enzymes that hydrolyze proteins. Generation+ manufactures three proprietary enzymes specifically designed to activate at wider pH and temperature ranges, thereby more effectively normalizing inflammation levels.\*

**Generation Plus Inc.** — *noun*, gen-er-a-tion plus, inc: the manufacturer of Zymitol® is a company founded on the commitment to raise the public's awareness of efficacious, complimentary solutions and natural medicines which preserve health and extend the lives of our fellow man.

**Inflammation** — *noun*, in-flam-ma-tion: a local response to cellular injury that is marked by capillary dilatation, leukocytic infiltration, redness, heat, and pain and that serves as a mechanism initiating the elimination of noxious agents and of damaged tissue.

**Infuse** — *transitive verb*, in-fuse: to cause to be permeated with something (as a principle or quality) that alters usually for the better. A mean to introduce one thing into another so as to affect it throughout. Infuse implies a pouring in of something that gives new life or significance. We have mapped the energies emitted by the Naticor™ formula and infused those same energies back into itself. Additionally we have selected other specific energy patterns from L-arginine, a unique Asian herb formula and a specific energetic formula chosen to support overall well being and to promote the overall harmonized effect of all Naticor™ ingredients, furthering our enhancement strategy.

**Knight** — *noun*, knight: an individual ceremonially inducted into special military rank. He was placed in this specification sheet as a prop to add a little humor because humor heals. It's nice to have him on our side in the battle against pain and inflammation.

**Lipase** — *noun*, li-pase: an enzyme that hydrolyzes glycerides. Lipase converts dietary fats into essential fatty acids. As we age our body alters the production of key enzymes like lipase, leaving the door open for fatty acid imbalance. Fatty acid imbalance may lead to many common discomforts and ailments traditionally associated with aging.\*

**Magnesium** — *noun*, mag-ne-sium: a silver-white, metallic element that occurs abundantly in nature. An overlooked yet simple potential treatment for conditions such as pain Magnesium acts as a noncompetitive antagonist of the N-methyl-D-aspartate receptor, which has been implicated in the transmission of pain.\*

**Methylsulfonylmethane** — *noun*, meth-yl-sul-fon-yl-me-thane: msm is a natural form of organic sulfur and is the prime source of bio-available sulfur. The body utilizes MSM for proper enzyme activity and the promotion of proper immune system functions. MSM also promotes healthy joints and helps maintain healthy circulation.\*

**Nutrition** — *noun*, nu-tri-tion: the act or process of nourishing or being nourished; specifically: the sum of the processes by which an animal or plant takes in and utilizes food substances. A healthful diet is a critical part of any pain management program.

**Pain** — *noun*, pain: usually localized physical suffering associated with bodily disorder (as a disease or an injury); also: a basic bodily sensation induced by a noxious stimulus, received by naked nerve endings, characterized by physical discomfort (as pricking, throbbing, or aching), and typically leading to evasive action

**Papain** — *noun*, pa-pa-in: a protease in the juice of unripe papaya that is used especially in medicine. Papain has acquired the reputation of a "biological scalpel" because it selectively digests dead tissue without affecting the surrounding live tissue. Papain comes to the rescue when the body requires a cleansing of the dead cellular material.\*

**Platinum Club** — *noun*, pla-ti-num club: The Platinum Club of Generation Plus, Inc is a group of volunteers made up of doctors, alternative care providers, and others whose lives have been touched by Generation Plus products.

**R+ Lipoic Acid** — *noun*, r-plus li-po-ic acid: of the two isomers of lipoic acid present in conventional supplements, R+ is the natural form. S(-)-lipoic acid is a purely artificial molecule. It is produced as a byproduct in the normal method of producing commercial lipoic acid. Conventional lipoic acid supplements use a 1:1 ratio of the R+ and S- isomers. Zymitol™ offers only the natural R+ isomer for a more beneficial ingredient. R+LA is a component of several human enzyme systems, ALA appears to have a rather positive effect on pain and may lower the activity of NFκB (NFκB can increase the activity of genes responsible for inflammation). ALA may also promote healthy blood flow to nerves, which may promote normal transmission of nerve impulses. ALA has the unique ability to directly recycle, re-activate, and extend the lifespan of other antioxidants such as vitamin C, vitamin E, Glutathione, and Coenzyme Q10, creating an antioxidant framework that is second to none. ALA also decreases the toxic effects from some drugs used to treat pain.\*

**Rutin** — *noun*, ru-tin: may promote healthy circulation. It has the unique ability to improve capillaries and veins and it supports the regeneration capacity of human body tissues. Rutin is also a powerful antioxidant that fights free radicals and seems to have a protective effect against syndromes that lower the body's oxygen supply.\*

**Serrapeptase** — *noun*, serra-pep-tase: a super protein digesting enzyme which breaks down "non living" matter in the human body. This action may promote a reduction in levels of dead tissue promoting smoother healthier flowing blood.\*

**Sprain** — *noun*, sprain a sudden or violent twist or wrench of a joint with stretching or tearing of ligaments followed by pain and inflammation.

**Swelling** — *noun*, swell-ing: an abnormal bodily protuberance or localized enlargement.

**Testimonial** — *adjective*, tes-ti-mo-ni-al: a statement testifying to benefits received. We are always in search of testimonials. If you have a great story to tell please telephone us directly at 877-255-8482.

**Trauma** — *noun*, trau-ma: an injury to living tissue caused by an extrinsic agent.

**Value** — *noun*, val-ue: a fair exchange of money for goods. Zymitol® is a great value.

**Water** — *noun*, wa-ter: a major constituent of all living matter and when it is pure is odorless and tasteless. Drink at least 8 fl. oz of pure water with each serving of Naticor™. Water must be available throughout our GI tract. Without proper amounts of water many biochemical reactions will not be performed.\*

**Zymitol** — *noun*, zym-i-tol: the new standard in broad spectrum enzyme therapy. With today's technology we are able to bring you an enzyme formula that couldn't even have been conceived in years past. Zymitol is an exceptional, excipient free product that you can be confident in recommending as part of your pain and inflammation programs.\*

THE NEW STANDARD IN BROAD SPECTRUM ENZYME THERAPY.
